

Reach YOUR Goals

'THE' Motivational & Sales Training Team

February 2018

Dear Mr Yash Vasant

As you know, I myself train, present and educate thousands of business people all over the world on the subjects of improving sales, increasing profit and effective networking.

I had the privilege of being a member of your audience at a recent International presentation you delivered. I was so impressed that I felt compelled to send you my thoughts in writing.

The first thing that totally impressed me was the way you kept your audience highly engaged, which in itself is an amazing achievement.

You showed a natural ability to inspire the members, motivate the team and set the region on fire. I personally found most value in your ability to build a great BNI team that ensures a powerful region is not just launched, but well supported.

Added to your wonderful presenting style, you demonstrated a very high level of knowledge on your subject matter and I walked away totally empowered to use the information that you kindly shared with us all.

BNI as a system is phenomenal. You showed that you were an expert in this field and I would have absolutely no hesitation recommending you to anyone that desires to help their BNI members in their quest to retire quicker.

I look forward to seeing and hearing you again

Best wishes

Phil Berg

BNI Assistant National Director for UK & Ireland
